

# Veridix Health Navigator

## Real Time Remote Patient Monitoring

Take control of your health like never before with Veridix Health Navigator, the innovative direct-to-consumer application designed for continuous, comprehensive health monitoring. Built within Advantage Clinical Cloud, the platform allows users to effortlessly track up to 15 vital biomarkers through devices, images and remotely administered, self-collected blood draws. With automatic data integration our platform offers a dynamic, real-time overview of your health, including detailed trends and alerts for any significant changes. Veridix Health Navigator empowers users and healthcare providers with actionable insights, reducing the need for frequent doctor visits and offering a clearer picture of long-term health trends than traditional electronic health records.

## Features

### Continuous Real-Time Monitoring

Track up to 15 biomarkers seamlessly through devices and self-administered blood draws.

### Remote Self-Collection

Easily collect blood samples at home and ship them to the lab for analysis.

### Automatic Data Integration

Results from lab tests are automatically loaded into a secure online portal.

### Comprehensive Health Dashboard

Explore a holistic overview of all health data, including device metrics and lab results in one place.

### Trend Analysis and Alerts

Review health trends and alerts for any notable changes that may require attention.

### User-Friendly Online Portal

Access your health data anytime, anywhere, with a user-friendly interface.

### Rapid Resupply Capabilities

Easily reorder or refill supplies (e.g., test kits, lancets, devices) through the online portal.

### Telemedicine / Remote Consultations

Review your health metrics with your provider directly from the online portal in a secure and documented manner.

### Enhanced Data Security

All personal health data is stored securely with robust encryption, ensuring privacy and compliance with health data regulations.

## Benefits

01

### Greater Insight into Health

With real-time monitoring and integrated data, users can see a comprehensive view of their health status and trends over time.

02

### Proactive Health Management

Stay ahead of potential health issues by detecting changes early, allowing for timely interventions.

03

### Convenience and Flexibility

Monitor your health from the comfort of your home without the need for frequent doctor visits or lab appointments.

04

### Empowerment Through Data

Gain a deeper understanding of your health metrics and how lifestyle changes impact overall wellness.

Benefits  
For Users

Benefits For Providers

Comprehensive Patient Data

Access detailed, longitudinal health data that provides a clearer picture of a patient's condition and trends over time.

01

Improved Patient Engagement

Engage with patients more effectively by providing them with actionable insights and personalized care plans based on real-time data.

02

Enhanced Decision-Making

Make informed clinical decisions with access to a broad range of biomarker data and patient-reported outcomes.

03

Reduced Administrative Burden

Minimize the need for frequent in-person visits, freeing up time and resources for more critical patient care needs.

04

→ Veridix Health Navigator

Is more than justt a health app-it's a powerful tool for managing your health. By combining continuous biomarker monitoring with advanced data integration, both users and healthcare providers are empowered to make more informed decisions, leading to better health outcomes. Discover a new way to take charge of your health today with Veridix Health Navigator.

Advantage eClinical Cloud

The industry's first truly unified eClinical platform. A single application for patients, sites, CROs, and Sponsors to conduct clinical research. Simplifying how trials are managed, Advantage eClinical Cloud is putting the focus back on developing the next generation of treatments.
